Prepared By	Advanced Marketing Limited | Hong Kong SAR

Date	April 2026

Only one thing is required.	The $3,000/month management fee is the only commitment. Every other line item — publications, KTLA, USA Today, Forbes, influencers, Facebook retargeting — is optional and can be added or removed each month.

THE ROI CASE

Why This Program Pays for Itself

At $50,000 per high-net-worth divorce case, with 100 billable hours at $500/hour, the math is straightforward. At the highest package spend of $237,000 per year, Berenji breaks even at fewer than 5 new clients. The firm likely closes more than that in a single month. Every client beyond breakeven is pure return.

$50,000	100 hrs	4–5 clients	$237,000
Value per divorce case	At $500/hr per case	Breakeven at highest package	Max annual program cost

This press will generate more than that. A single well-placed article in LA Weekly, a KTLA segment seen by hundreds of thousands of LA households, or a Forbes byline that ranks in Google search results for years — any one of these alone can deliver a client that covers the entire annual program cost. The combination, run consistently over 12 months, builds a brand that generates clients on autopilot.

ABOUT THE FIRM

Awards & Recognition

PROGRAM TIERS

Choose Your Monthly SEO Anchor

The only required spend is the $3,000/month management fee. The tier simply determines which anchor publication runs each month. All other channels are optional add-ons.

TIER A

1 Article Per Month

LA Weekly OR Irvine Weekly — $3,500/month

One DO-Follow SEO article per month. Switch between the two publications at any time. All other 80+ publications available as optional rotating additions.

From $191,000/year
(full program, all channels)

TIER B

2 Articles Per Month

LA Weekly AND Irvine Weekly — $7,000/month

One DO-Follow article per month in each publication. Double the SEO backlink volume covering both LA and OC markets simultaneously every month.

From $233,000/year
(full program, all channels)

Publication flexibility. LA Weekly and Irvine Weekly are the recommended anchors. Berenji may substitute either for any other publication in the 80+ list at any time. All publications are interchangeable.

PREMIUM & TV PLACEMENTS

KTLA, USA Today & Forbes: Each Once, Whenever You're Ready

These are one-time placements over the life of the contract. The timing is chosen by Berenji. Each is optional and can be added to any monthly spend.

KTLA
UNSCRIPTED SEGMENT

Once During the Contract | Recommended: Q2 or Q3

TV placement on one of LA's most-watched local stations. Reaches hundreds of thousands of LA households. An unscripted segment positions a Berenji attorney as the go-to expert for high-asset divorce in a format that feels authentic and authoritative.

$31,000

USA TODAY
NATIONAL PRINT & DIGITAL

Once During the Contract | Recommended: Q2

National reach. Positions Berenji beyond the LA market. Drives brand search volume and signals credibility to a national audience of high-income women.

$5,000

FORBES
NATIONAL PRESTIGE

Once During the Contract | Recommended: Q4

The highest-prestige placement in the program. A Forbes byline ranks in Google for years and creates a permanent credibility asset no local competitor can match.

$10,000

FACEBOOK RETARGETING

Convert the Traffic You're Already Getting

This is not a cold audience campaign. We are not spending money trying to reach new people on Facebook. We are retargeting the people who already visited the Berenji website — people who are actively researching divorce attorneys — and keeping the firm top of mind until they book a consultation.

$500–$1,000 /month

Ad spend only. No additional management fee.

What it does

A custom audience is built from Berenji website visitors. Facebook ads follow those visitors across their feed, Instagram, and partner sites with branded content reinforcing the firm's authority. When a woman researching divorce sees a Berenji article in LA Weekly and then sees a Berenji ad on her Facebook feed that evening, the conversion rate increases dramatically.

Why minimal spend works

Retargeting audiences are small and highly qualified. The people seeing these ads have already self-selected by visiting the site. A $500/month budget delivers full coverage of that audience multiple times per week. This is the highest-ROI Facebook spend available.

CONTENT STRATEGY
